DETAILED ACTION

Receipt is acknowledged of an amendment, filed 9/3/2004, in which claims 50-68 and 70-77 were amended. Claims 50-68, 70-77 are pending in the instant application.

Any rejection of record not addressed herein is withdrawn. This action is FINAL.

Priority

Applicants' amendment of the first sentence of the specification in the papers filed 12 April 2002 is acknowledged. A corrected bibliography data sheet has been entered into the file along with this action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 50-63 & 74 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. *This is a new rejection necessitated by applicants' amendment of the claims in the papers filed 9/3/2004.*

Each of the new claims recites a limitation that specifies that the plasmid vector of the invention induces the co-expression in a eukaryotic host cell of at least two *and not more than*

three gene products (examiner's emphasis added). There is no literal or inherent support in the originally filed specification for this newly added limitation in the rejected claims. Therefore, the newly added limitation is impermissible NEW MATTER.

Conclusion

Claims 50-68, 70-77 are pending in the instant application, with claims 50-63 & 74 rejected herein. Claims 64-68, 70-73 and 75-77 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
